Subject: ICF Grey Literature Decision Tree Screening Results
Attachments: Master Gray Sources_ICF_Eng_Eco_HH_Exp_ICF_DecTreeScreen_013120.xlsx

Hi Yousuf,

Please find attached the updated screening file with ERG sources added. We have completed most of the decision tree screening with the exception of disparate type 3 sources from ERG. We did our best to tag them into the disciplines, but we can refine the tags for each document if you would like for us to continue that next week. There are about 410 rows that would need to be checked and put through the decision tree individually. There were some sources that were not accessible from the urls provided such as from National Library of Medicine sources that have been retired. Please let us know if you have any questions.

Best,
Kevin
